

Alcohol and Drug Policy

Objective:

To ensure our members are not partaking in alcohol or illegal drug consumption during NCHA sanctioned events.

Applicability:

This policy applies to players, parents, managers, coaches, conveners and NCHA board members.

There will be a ZERO tolerance for coaching staff and players who are in contravention with this policy. It is the coach and manager's responsibility to ensure that there is no alcohol consumed at any team functions.

If a coaching staff member or members decide to drink alcohol, please ensure that you are not involved in any team function, and are not responsible for any of the kids for the remainder of the day. If your team has a hospitality suite, it is up to the coaching staff to ensure that it doesn't get out of hand, as the team is representing the Nickel City Hockey Association.

Coaching staff should refrain from alcohol consumption on buses travelling to team events. Coaching staff must also ensure parents consuming alcohol on the bus are acting in an appropriate manner.

Process:

Teams/members that are found guilty of acting inappropriately will have to defend their actions to the NCHA Disciplinary Committee.
