

A Player Release Policy

Objective:

- To release A level players from outlying areas that are actually closer to other associations, e.g., to release players from Espanola that are closer to Manitoulin.

Applicability:

- Players requesting releases must have their permanent address closer to the association they want to try out for than the nearest NCHA home association.

Process:

- The parent will request a release from the NCHA, supported by the details for their child, including permanent residence address and the name of the association trying out for. A signing authority from the NCHA will give the necessary release to the parents of the player.
