

## Coach Development Reimbursement

---

### Objective:

To ensure:

1. That NCHA coaches are up to date with current coaching development and instructional procedures and information.
2. That the NCHA compensate the coaches for Board approved coaching course costs (course fees only, unless otherwise decided by the Board).
3. That the kids are receiving up to date hockey instructional information in all aspects and positions within the game.

### Applicability:

This policy applies to all NCHA coaches, assistant coaches, goalie coaches and trainers in all divisions.

### Process:

NCHA Coaches and trainers will receive 100% reimbursement for all **Board approved** course fees, after obtaining available funding, as follows:

- a. 50% of the course fee will be reimbursed after completion of the course and proof of successful completion / certification and proof payment, supplied to the Board Player Development representative, for approval.
- b. 50% upon successful completion of any written assignment and / or practical evaluation – if / as required as part of the course curriculum. In the absence of a course requirement for additional written or practical evaluation b) – then 100% of course fee would be reimbursed under a).

Notes:

1. Failure to successfully complete the course or failure to provide proof of successful completion and proof of payment, will result in – no refund by the NCHA.
2. Coaches accepting funding from the NCHA have to commit to coaching for one season, after full reimbursement.
3. All coach certification courses such as Initiation, D1, D2, Speak Out, Trainer course, police checks, etc., will not be covered and can be built into the individual team budget.

## Coach Development Reimbursement

4. The Coach Association of Ontario has a bursary to reimburse up to 70% for a coaching courses such as Dev 1, etc. Has to be submitted within 60 days from the course. Here is the link: <http://www.coachesontario.ca/q4g/bursary-program/>. If you attended last weekend's clinic in Hanmer you should enter 00000 as the NCCP# and the rest of the application should probably look like this:
